Press Release

EClassroomHub Brings STEM Educators & Students Together Worldwide

ATLANTA, GA – Founded in 2014, EclassroomHub.com harnesses the power of a collaborative online platform and shares information between STEM educators and students worldwide. The exchange of STEM knowledge will accelerate and deepen the adoption of new STEM curriculums in more schools. This also means that STEM educators can adopt an online classroom to publish their curriculum and projects and connect with other STEM educators.

“Together, we work with STEM educators and STEM innovation partners to build Living Labs to catalyze more innovative thinking and learning. The Living Lab is a new approach to STEM, geared toward achieving hands-on learning environment for students. Our innovation partners are sponsors of Living Labs enabling our work and priorities supporting STEM Living Labs through corporate sponsorships”, said Minna LeVine, Co-Founder, Eco Commerce Exchange. The success of this program is dependent on four things: collaboration, innovation, leadership and impact.

Collaboration: As a partnership of STEM educators and STEM innovation partners, collaboration is core to the program. The diverse perspectives and the open exchange of ideas will lead to the innovative solutions and catalytic change that will benefit students and educators.

Innovation: Accelerating fresh thinking and new approaches in order to creatively contribute to education challenges and provide opportunities for all.

Leadership: It’s important to ask questions, challenge and support our partners in their efforts to do the same. Our goal is to search for strategic opportunities to share our online classrooms and Living Labs as well as to engage more educators, students, and innovation partners, to bring innovation in STEM to the mainstream.

Impact: There is a commitment to expand the EClassroomHub network and ignite future innovation in order to serve educators and students and improve the lives of people and communities where we operate.

For more information on EClassroomHub go to www.EClassroomHub.com or contact Tana Torrano at 256.520.7544 or Tana@MarketVision.org
