SMART WORKSHOP

Helsinki, Finland - September 6, 2017

About SMART Workshops

SMART Workshop introduces you to SMART Communities and their development vision to integrate multiple information and communication (ICT) and Internet of Things (IoT) and SMART (Sustainable, Measurable, Affordable, Resilience, Technology) solutions in a secure fashion to manage community assets including, but not limited to, local departments information systems, schools, libraries, transportation systems, hospitals, power plants, water supply networks, waste management, law enforcement, and other community services. The goal of building a smart community is to improve quality of life by using technology to improve the efficiency of services and meet citizens' needs. The workshops bring together SMART Partners and SMART sister-communities facilitating collaboration between SMART professionals, enterprises and organizations. The participants will learn about ways to engage in SMART Partner Program (SPP), SMART Soft-Landing Program, and SMART Partner Projects.
